| Hersteller               | Biomatik Corporation                                                                                                                                                                                                                                          |
| Wirt                     | E. coli                                                                                                                                                                                                                                                       |
| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                              |
| Applikation              | Control, SDS-PAGE, WB                                                                                                                                                                                                                                         |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Konjugation              | Unconjugated                                                                                                                                                                                                                                                  |
| Produktbeschreibung      | Recombinant Human Gamma-Glutamyl Hydrolase (gGH) is a purified Prokaryotic Protein. Purity: >97% by SDS-PAGE. Host: E. coli. Endotoxin Level: <1.0EU per 1ug, by the LAL method. Species: Human (Homo sapiens). Target Name: Gamma-Glutamyl Hydrolase (gGH... |
| Molekulargewicht         | 37kDa                                                                                                                                                                                                                                                         |
| Tag                      | N-Terminal His Tag                                                                                                                                                                                                                                            |
| NCBI                     | <a href="#">8836</a>                                                                                                                                                                                                                                          |

|                   |                                                 |
|-------------------|-------------------------------------------------|
| Puffer            | PBS, pH7.4, containing 0.01% SKL, 5% Trehalose. |
| Expression System | Prokaryotic Expression                          |
| Reinheit          | >97% by SDS-PAGE                                |
| Formulierung      | Freeze-dried powder                             |
| Target-Kategorie  | Gamma-Glutamyl Hydrolase (gGH)                  |
