| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                              |
| Applikation              | Control, SDS-PAGE, WB                                                                                                                                                                                                                                         |
| Spezies Reaktivität      | Mouse                                                                                                                                                                                                                                                         |
| Konjugation              | Unconjugated                                                                                                                                                                                                                                                  |
| Produktbeschreibung      | Recombinant Mouse Pyruvate Dehydrogenase Complex Component X (PDHX) is a purified Prokaryotic Protein. Purity: >95% by SDS-PAGE. Host: E. coli. Endotoxin Level: <1.0EU per 1ug, by the LAL method. Species: Mouse (Mus musculus). Target Name: Pyruvate D... |
| Molekulargewicht         | 33kDa                                                                                                                                                                                                                                                         |
| Tag                      | N-Terminal His Tag                                                                                                                                                                                                                                            |
| NCBI                     | <a href="#">27402</a>                                                                                                                                                                                                                                         |
| Puffer                   | PBS, pH7.4, containing 0.01% SKL, 5% Trehalose.                                                                                                                                                                                                               |

|                   |                                                   |
|-------------------|---------------------------------------------------|
| Expression System | Prokaryotic Expression                            |
| Reinheit          | >95% by SDS-PAGE                                  |
| Formulierung      | Freeze-dried powder                               |
| Target-Kategorie  | Pyruvate Dehydrogenase Complex Component X (PDHX) |
