| Kategorie                | Kits/Assays                                                                                                                                                                                                                                            |
| Spezies Reaktivität      | Mouse                                                                                                                                                                                                                                                  |
| Immunogen                | Serum, plasma, cell culture supernatant, and other biological fluids.                                                                                                                                                                                  |
| Konjugation              | Biotin                                                                                                                                                                                                                                                 |
| Produktbeschreibung      | The ELISA (Enzyme-Linked Immunosorbent Assay) kit is an in vitro enzyme-linked immunosorbent assay for the quantitative measurement of samples in serum, Plasma , Urine ,tissue homogenates and Cell culture supernates and Other biological fluids... |
| Konzentration            | 39 pg/mL                                                                                                                                                                                                                                               |
| Molekulargewicht         | 4 hours                                                                                                                                                                                                                                                |
| Detektionsbereich        | 78.1-5000 pg/mL                                                                                                                                                                                                                                        |
| Sensitivitaet            | 39 pg/mL                                                                                                                                                                                                                                               |
| NCBI                     | <a href="#">18024</a>                                                                                                                                                                                                                                  |

|                        |                                            |
|------------------------|--------------------------------------------|
| UniProt                | <a href="#">Q60795</a>                     |
| Proben                 | Serum, plasma and cell culture supernates. |
| Anwendungsbeschreibung | Cross-Reactivity: 78.13-5000 pg/mL         |
