## Product Datasheet

### **MYC (phosphoT58/S62) monoclonal antibody, clone AOO-13, Clone: [AOO-13], Rabbit, Monoclonal ABN-MAB20499**

|                          |                                                                                             |
|--------------------------|---------------------------------------------------------------------------------------------|
| Artikelname              | MYC (phosphoT58/S62) monoclonal antibody, clone AOO-13, Clone: [AOO-13], Rabbit, Monoclonal |
| Artikelnummer            | ABN-MAB20499                                                                                |
| Hersteller Artikelnummer | MAB20499                                                                                    |
| Alternativnummer         | ABN-MAB20499-100                                                                            |
| Hersteller               | Abnova                                                                                      |
| Wirt                     | Rabbit                                                                                      |
| Kategorie                | Antikörper                                                                                  |
| Applikation              | FC, ICC, IF, IP, WB                                                                         |
| Spezies Reaktivität      | Human                                                                                       |
| Immunogen                | A synthetic phosphopeptide corresponding to residues surrounding T58/S62 of human MYC.      |
| Produktbeschreibung      | Rabbit monoclonal antibody raised against synthetic phosphopeptide of human MYC....         |
| Klonalität               | Monoclonal                                                                                  |
| Klon-Bezeichnung         | [AOO-13]                                                                                    |
| UniProt                  | 4609                                                                                        |
| Puffer                   | In PBS, 150 mM NaCl, pH 7.4 (50% glycerol, 0.4-0.5 mg/mL BSA, 0.02% sodium azide).          |

|                        |                                                                                                                                                                                          |
|------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Formulierung           | Liquid                                                                                                                                                                                   |
| Target-Kategorie       | MYC                                                                                                                                                                                      |
| Application Verdünnung | Immunocytochemistry (1:100-1:200)Immunofluorescence (1:100-1:200)Immunoprecipitation (1:50)Western Blot (1:500-1:2000)The optimal working dilution should be determined by the end user. |
