## Product Datasheet

### **NFKBIA (phospho S32) monoclonal antibody, clone EDG-14, Clone: [EDG-14], Rabbit, Monoclonal ABN-MAB20530**

|                          |                                                                                             |
|--------------------------|---------------------------------------------------------------------------------------------|
| Artikelname              | NFKBIA (phospho S32) monoclonal antibody, clone EDG-14, Clone: [EDG-14], Rabbit, Monoclonal |
| Artikelnummer            | ABN-MAB20530                                                                                |
| Hersteller Artikelnummer | MAB20530                                                                                    |
| Alternativnummer         | ABN-MAB20530-100                                                                            |
| Hersteller               | Abnova                                                                                      |
| Wirt                     | Rabbit                                                                                      |
| Kategorie                | Antikörper                                                                                  |
| Applikation              | ICC, IF, IP, WB                                                                             |
| Spezies Reaktivität      | Human                                                                                       |
| Immunogen                | A synthetic phosphopeptide corresponding to residues surrounding S32 of human NFKBIA.       |
| Produktbeschreibung      | Rabbit monoclonal antibody raised against synthetic phosphopeptide of human NFKBIA....      |
| Klonalität               | Monoclonal                                                                                  |
| Klon-Bezeichnung         | [EDG-14]                                                                                    |
| UniProt                  | 4792                                                                                        |
| Puffer                   | In PBS, 150 mM NaCl, pH 7.4 (50% glycerol, 0.4-0.5 mg/mL BSA, 0.02% sodium azide).          |

|                        |                                                                                                                                                                                        |
|------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Formulierung           | Liquid                                                                                                                                                                                 |
| Target-Kategorie       | NFKBIA                                                                                                                                                                                 |
| Application Verdünnung | Immunocytochemistry (1:50-1:200)Immunofluorescence (1:50-1:200)Immunoprecipitation (1:50)Western Blot (1:500-1:2000)The optimal working dilution should be determined by the end user. |
