| Produktbeschreibung      | Involved in the activation cascade of caspases responsible for apoptosis execution. Binding of caspase-9 to Apaf-1 leads to activation of the protease which then cleaves and activates effector caspases caspase-3 (CASP3) or caspase-7 (CASP7). Promotes... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |

|------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Formulierung     | Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein A column, followed by peptide affinity purification. |
| Target-Kategorie | This anti-Caspase 9 antibody is generated from a rabbit immunized with a KLH conjugated synthetic peptide between amino acids from the human region of human anti-Caspase 9. |
