| Produktbeschreibung      | Immune suppressive molecule that inhibits antigen-specific T- cell activation by acting as a major ligand of LAG3 (PubMed: <a href="#">30580966</a> ). Responsible for LAG3 T-cell inhibitory function (PubMed: <a href="#">30580966</a> ). Binds LAG3 independently from MHC class II (MHC-II... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                                                        |

|                  |                                                                                                                                                                              |
|------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Formulierung     | Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein A column, followed by peptide affinity purification. |
| Target-Kategorie | This antibody is generated from a rabbit immunized with a KLH conjugated synthetic peptide between amino acids from human.                                                   |
