## Product Datasheet

### **Cytochrome C (Mitochondrial Marker)(rCYCS/1010), CF405S conjugate, 0.1mg/mL, Clone: [rCYCS/1010], Mouse, Monoclonal BOT-BNC043641-100**

|                          |                                                                                                                                                                                                                                                               |

| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | FC, IHC, WB                                                                                                                                                                                                                                                   |
| Spezies Reaktivität      | Aves, Canine, Drosophila, Equine, Frog, Human, Mouse, Rat                                                                                                                                                                                                     |
| Immunogen                | Synthetic peptides corresponding to amino acid 1-80, 81-104 and 66-104 of pigeon cytochrome c                                                                                                                                                                 |
| Konjugation              | CF405S                                                                                                                                                                                                                                                        |
| Produktbeschreibung      | Recognizes an epitope within amino acids 93-104 of pigeon Cytochrome C, a well-characterized mobile electron transport protein that is essential to energy conversion in all aerobic organisms. In mammalian cells, this highly conserved protein is norma... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 0.1 mg/mL                                                                                                                                                                                                                                                     |

|                  |                            |
|------------------|----------------------------|
| Klon-Bezeichnung | [rCYCS/1010]               |
| Molekulargewicht | 15 kDa                     |
| UniProt          | <a href="#">P99999</a>     |
| Puffer           | PBS, 0.1% BSA, 0.05% azide |
