| Produktbeschreibung      | BRCA1 is a nuclear phosphoprotein that plays a role in maintaining genomic stability, and it also acts as a tumor suppressor. It combines with other tumor suppressors, DNA damage sensors, and signal transducers to form a large multi-subunit protein c... |
| Konzentration            | 0.1 mg/mL                                                                                                                                                                                                                                                     |
| Puffer                   | PBS, 0.1% BSA, 0.05% azide                                                                                                                                                                                                                                    |
