## Product Datasheet

### **Dystrophin (DMD) (Marker of Duchenne and Becker Muscular Dystrophy)(DMD/3243), CF568 conjugate, 0.1mg/mL, Clone: [DMD/3243], Mouse, Monoclonal BOT-BNC683243-500**

|                          |                                                                                                                                                                                                                                                               |

| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IHC                                                                                                                                                                                                                                                           |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | A recombinant fragment (around aa 114-263) of human DMD protein (exact sequence is proprietary)                                                                                                                                                               |
| Konjugation              | CF568                                                                                                                                                                                                                                                         |
| Produktbeschreibung      | Dystrophin-glycoprotein complex (DGC) connects the F-Actin cytoskeleton on the inner surface of muscle fibers to the surrounding extracellular matrix, through the cell membrane interface. A deficiency in this protein contributes to Duchenne (DMD) and... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |

|                  |                            |
|------------------|----------------------------|
| Konzentration    | 0.1 mg/mL                  |
| Klon-Bezeichnung | [DMD/3243]                 |
| Molekulargewicht | 427 kDa                    |
| UniProt          | <a href="#">P11532</a>     |
| Puffer           | PBS, 0.1% BSA, 0.05% azide |
| Quelle           | Animal                     |
