| Immunogen                | Recombinant human full-length TNC protein                                                                                                                                                                                                                     |
| Produktbeschreibung      | In Western blotting, this antibody reacts with two bands of ~MW of 210 kDa and 300 kDa, identified as two isoforms of Tenascin C. Specificity of this MAb is validated by sequential immunoprecipitation with a PAb against Tenascin C. Tenascin C is a mu... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
