| Immunogen                | Synthetic peptide, corresponding to amino acids N-terminus of Human CstF-64.                                                                                                                                                                                  |
| Konjugation              | Unconjugated                                                                                                                                                                                                                                                  |
| Produktbeschreibung      | CstF-64 contains an RNA binding domain and is responsible for the RNA binding activity of CstF. CstF-64 is expressed in all somatic cells and in pre- and postmeiotic, but not meiotic, germ cells. However, a large variant of CstF-64, called t CstF-64,... |
| Molekulargewicht         | ~ 64 kDa                                                                                                                                                                                                                                                      |
| UniProt                  | <a href="#">P33240</a>                                                                                                                                                                                                                                        |

|                        |                                                                                                                                                             |
|------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reinheit               | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen and the purity is > 95% (by SDS-PAGE). |
| Formulierung           | Rabbit IgG, 1mg/ml in PBS with 0.02% sodium azide, 50% glycerol, pH7.2                                                                                      |
| Application Verdünnung | WB: 1:500~1:1000 IHC: 1:50~1:200 IF: 1:50~1:200                                                                                                             |
| Anwendungsbeschreibung | CstF-64 (R46) polyclonal antibody detects endogenous levels of CstF-64 protein.                                                                             |
