| Immunogen                | Synthetic peptide, corresponding to amino acids 80-120 of Human Rak.                                                                                                                                                                                          |
| Konjugation              | Unconjugated                                                                                                                                                                                                                                                  |
| Produktbeschreibung      | Src is the human homolog of the v-src gene of the Rous sarcoma virus, also known as avian sarcoma virus or ASV. Src is the first proto-oncogenic nonreceptor tyrosine kinase characterized in human. By virtue of common structural motifs, the Src family... |
| Molekulargewicht         | ~ 55 kDa                                                                                                                                                                                                                                                      |
| UniProt                  | <a href="#">P42685</a>                                                                                                                                                                                                                                        |

|                        |                                                                                                                                                             |
|------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reinheit               | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen and the purity is > 95% (by SDS-PAGE). |
| Formulierung           | Rabbit IgG, 1mg/ml in PBS with 0.02% sodium azide, 50% glycerol, pH7.2                                                                                      |
| Application Verdünnung | WB: 1:500~1:1000 IHC: 1:50~1:200 IF: 1:50~1:200                                                                                                             |
| Anwendungsbeschreibung | Rak (N103) polyclonal antibody detects endogenous levels of Rak protein.                                                                                    |
