| Applikation              | WB                                                                                                                                                                                                                                                            |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Synthetic peptide, corresponding to amino acids 180-220 of Human Hox-A1.                                                                                                                                                                                      |
| Konjugation              | Unconjugated                                                                                                                                                                                                                                                  |
| Produktbeschreibung      | Hox genes play a fundamental role in the development of the vertebrate central nervous system, heart, axial skeleton, limbs, gut, urogenital tract and external genitalia. The homeobox gene HoxA1 is transcriptionally regulated by retinoic acid (RA) an... |
| Molekulargewicht         | ~ 38 kDa                                                                                                                                                                                                                                                      |
| UniProt                  | <a href="#">P49639</a>                                                                                                                                                                                                                                        |

|                        |                                                                                                                                                             |
|------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reinheit               | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen and the purity is > 95% (by SDS-PAGE). |
| Formulierung           | Rabbit IgG, 1mg/ml in PBS with 0.02% sodium azide, 50% glycerol, pH7.2                                                                                      |
| Application Verdünnung | WB: 1:500~1:1000                                                                                                                                            |
| Anwendungsbeschreibung | Hox-A1 (Q203) polyclonal antibody detects endogenous levels of Hox-A1 protein.                                                                              |
