| Immunogen                | Synthetic peptide, corresponding to amino acids 50-100 of Human TRAIL.                                                                                                                                                                                        |
| Konjugation              | Unconjugated                                                                                                                                                                                                                                                  |
| Produktbeschreibung      | Tumor necrosis factor (TNF)-related apoptosis-inducing ligand (TRAIL), also referred to as Apo2 ligand, first identified based on its sequence homology to TNF and Fas/Apo ligand is a member of the TNF family of cytokines and either exists as a type I... |
| Molekulargewicht         | ~34 kDa                                                                                                                                                                                                                                                       |
| UniProt                  | <a href="#">P50591</a>                                                                                                                                                                                                                                        |

|                        |                                                                                                                                                             |
|------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reinheit               | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen and the purity is > 95% (by SDS-PAGE). |
| Formulierung           | Rabbit IgG, 1mg/ml in PBS with 0.02% sodium azide, 50% glycerol, pH7.2                                                                                      |
| Application Verdünnung | IHC: 1:50~1:200 IF: 1:50~1:200                                                                                                                              |
| Anwendungsbeschreibung | TRAIL (S63) polyclonal antibody detects endogenous levels of TRAIL protein.                                                                                 |
