| Immunogen                | Recombinant fusion protein of human GNT-V/MGAT5(NP_002401.1).                                                                                                                                                                                                 |
| Konjugation              | Unconjugated                                                                                                                                                                                                                                                  |
| Produktbeschreibung      | The protein encoded by this gene belongs to the glycosyltransferase family. It catalyzes the addition of beta-1,6-N-acetylglucosamine to the alpha-linked mannose of biantennary N-linked oligosaccharides present on the newly synthesized glycoproteins.... |
| Molekulargewicht         | 100KDa                                                                                                                                                                                                                                                        |
| UniProt                  | <a href="#">Q09328</a>                                                                                                                                                                                                                                        |
| Reinheit                 | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen and the purity is > 95% (by SDS-PAGE).                                                                                                   |

|                        |                                                            |
|------------------------|------------------------------------------------------------|
| Formulierung           | 1mg/ml in PBS with 0.02% sodium azide, 50% glycerol, pH7.2 |
| Application Verdünnung | WB,1:500 - 1:2000                                          |
| Anwendungsbeschreibung | Unmodification                                             |
