| Produktbeschreibung      | This product includes lysate of HEK293T cells that have been transiently-transfected with Human IDO1 (NM_002164), cells transfected with the vector alone, and a reducing buffer for SDS-Page gel loading. Cells were lysed using Modified RIPA buffer (25m... |
| Konzentration            | 1 mg/ml                                                                                                                                                                                                                                                        |
