## Product Datasheet

### Anti-BOK Antibody, Rabbit, Polyclonal BOB-A05577-1

|                          |                                                                                                                                  |
|--------------------------|----------------------------------------------------------------------------------------------------------------------------------|
| Artikelname              | Anti-BOK Antibody, Rabbit, Polyclonal                                                                                            |
| Artikelnummer            | BOB-A05577-1                                                                                                                     |
| Hersteller Artikelnummer | A05577-1                                                                                                                         |
| Alternativnummer         | BOB-A05577-1-100UL                                                                                                               |
| Hersteller               | Boster Bio                                                                                                                       |
| Wirt                     | Rabbit                                                                                                                           |
| Kategorie                | Antikörper                                                                                                                       |
| Applikation              | ELISA, WB                                                                                                                        |
| Spezies Reaktivität      | Human, Mouse, Rat                                                                                                                |
| Immunogen                | Synthesized peptide derived from human protein at AA range: 10-90                                                                |
| Produktbeschreibung      | Boster Bio Anti-BOK Antibody catalog A05577-1. Tested in WB, ELISA applications. This antibody reacts with Human, Mouse, Rat.... |
| Klonalität               | Polyclonal                                                                                                                       |
| Konzentration            | 1 mg/ml                                                                                                                          |
| Molekulargewicht         | 23280 MW                                                                                                                         |
| UniProt                  | <a href="#">Q9UMX3</a>                                                                                                           |
| Puffer                   | Liquid form in PBS containing 50% glycerol, and 0.02% sodium azide.                                                              |
| Reinheit                 | BOK antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.            |

|                        |                                      |
|------------------------|--------------------------------------|
| Formulierung           | Liquid                               |
| Target-Kategorie       | Bcl-2-related ovarian killer protein |
| Application Verdünnung | WB 1:500-2000 ELISA 1:5000-20000     |
