| Immunogen                | Synthesized phosho peptide around human Mcl-1 (Thr163)                                                                                                                                                                                                        |
| Produktbeschreibung      | This gene encodes an anti-apoptotic protein, which is a member of the Bcl-2 family. Alternative splicing results in multiple transcript variants. The longest gene product (isoform 1) enhances cell survival by inhibiting apoptosis while the alternativ... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
