| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ELISA, IHC-P, WB                                                                                                                                                                                                                                              |
| Spezies Reaktivität      | Human, Mouse, Rat                                                                                                                                                                                                                                             |
| Immunogen                | The antiserum was produced against synthesized peptide derived from human Synuclein-alpha. AA range:86-135                                                                                                                                                    |
| Produktbeschreibung      | Blue Fluorescent Protein (BFP) emits a strong blue fluorescence. EBFP can be used as protein tags to study the sub-cellular localization of proteins and/or their translocation upon stimulation or as markers for transfection in transient and stable ex... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
| UniProt                  | <a href="#">P37840</a>                                                                                                                                                                                                                                        |
| Quelle                   | Polyclonal, Rabbit                                                                                                                                                                                                                                            |
| Reinheit                 | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.                                                                                                                                         |

|                        |                                                                                                                          |
|------------------------|--------------------------------------------------------------------------------------------------------------------------|
| Formulierung           | Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.                                                  |
| Application Verdünnung | Western Blot: 1/500 - 1/2000. Immunohistochemistry: 1/100 - 1/300. ELISA: 1/40000. Not yet tested in other applications. |
