| Immunogen                | Synthesized peptide derived from part region of human protein                                                                                                                                                                                                 |
| Produktbeschreibung      | MARCH7 is a member of the MARCH family of membrane-bound E3 ubiquitin ligases (EC 6.3.2.19). MARCH proteins add ubiquitin (see MIM 191339) to target lysines in substrate proteins, thereby signaling their vesicular transport between membrane compartme... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
