| Immunogen                | Synthesized peptide derived from part region of human protein                                                                                                                                                                                                 |
| Produktbeschreibung      | This gene encodes a member of the small leucine-rich proteoglycan family of proteins. Alternative splicing results in multiple transcript variants, at least one of which encodes a preproprotein that is proteolytically processed to generate the mature... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
