| Kategorie                | Antikörper                                                                                                                                                                                                                                                     |
| Applikation              | ELISA, IF, IHC, WB                                                                                                                                                                                                                                             |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                          |
| Immunogen                | Purified recombinant fragment of human IMP-3 expressed in E. Coli.                                                                                                                                                                                             |
| Produktbeschreibung      | The protein encoded by this gene is primarily found in the nucleolus, where it can bind to the 5' UTR of the insulin-like growth factor II leader 3 mRNA and may repress translation of insulin-like growth factor II during late development. The encoded ... |
