| Artikelname              | TAP-Tag Antibody (Mix), HRP Conjugated, Mouse, Monoclonal                                                                                        |
| Artikelnummer            | AST-N1205                                                                                                                                        |
| Hersteller Artikelnummer | N1205                                                                                                                                            |
| Alternativnummer         | AST-N1205-100,AST-N1205-50,AST-N1205-500                                                                                                         |
| Hersteller               | Assay Biotechnology                                                                                                                              |
| Wirt                     | Mouse                                                                                                                                            |
| Kategorie                | Antikörper                                                                                                                                       |
| Applikation              | WB                                                                                                                                               |
| Spezies Reaktivität      | All                                                                                                                                              |
| Konjugation              | HRP                                                                                                                                              |
| Klonalität               | Monoclonal                                                                                                                                       |
| Quelle                   | Monoclonal, Mouse IgG                                                                                                                            |
| Reinheit                 | The antibody was affinity-purified from mouse ascites by affinity-chromatography using specific immunogen.                                       |
| Formulierung             | Liquid in PBS, pH 7.4, containing 0.02% sodium azide as preservative and 50% Glycerol.                                                           |
| Application Verdünnung   | Optimal working dilutions should be determined experimentally by the investigator. Suggested starting dilutions are as follows: WB 1:5000-10000. |
