| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | Functional Studies, ICC, IF                                                                                                                                                                                                                                   |
| Spezies Reaktivität      | Human, Mouse                                                                                                                                                                                                                                                  |
| Immunogen                | IGF-1R/3T3 mouse fibroblasts transfected with human type I IGF-receptor cDNA                                                                                                                                                                                  |
| Produktbeschreibung      | This antibody is specific for the human insulin-like growth factor 1 receptor (IGF1R). It recognizes the extracellular portion of the receptor, specifically an epitope in the cysteine rich domain of the alpha subunit, between amino acids 184 and 283.... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [24-60]                                                                                                                                                                                                                                                       |
| Molekulargewicht         | 130kDa (IGF-1R), 97kDa (IGF-1R), 200kDa (pro-IGF-1R)                                                                                                                                                                                                          |
| Isotyp                   | IgG2a                                                                                                                                                                                                                                                         |

|              |                                                                                                                                                                        |
