| Alternativnummer         | NBT-9308-MSM5-P1ABX-100                                                                                                                                                                                                                                       |
| Hersteller               | NeoBiotechnologies                                                                                                                                                                                                                                            |
| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IHC, WB                                                                                                                                                                                                                                                       |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Prokaryotic recombinant protein corresponding to 124 amino acids of the external N-terminus of the CD83 molecule.                                                                                                                                             |
| Produktbeschreibung      | CD83 antigen, a member of the immunoglobulin superfamily, is a useful marker of mature and activated dendritic cells. These include Langerhans cells in the skin, peripheral blood dendritic cells and interdigitating reticulum cells within the T cell z... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [r1H4b]                                                                                                                                                                                                                                                       |
| Molekulargewicht         | 23kDa                                                                                                                                                                                                                                                         |

|              |                                                                                                                                                                           |
