| Artikelname              | Mouse IgG2b kappa Isotype Control [MPC-11] (PE), Monoclonal             |
| Artikelnummer            | ABC-A86382-100                                                          |
| Hersteller Artikelnummer | A86382-100                                                              |
| Alternativnummer         | ABC-A86382-100                                                          |
| Hersteller               | Antibodies.com                                                          |
| Wirt                     | Mouse                                                                   |
| Kategorie                | Antikörper                                                              |
| Applikation              | FC                                                                      |
| Immunogen                | KLH-coupled trinitrophenol.                                             |
| Konjugation              | PE                                                                      |
| Klonalität               | Monoclonal                                                              |
| Konzentration            | 100 µg/ml                                                               |
| Klon-Bezeichnung         | [MPC-11]                                                                |
| Isotyp                   | IgG2b                                                                   |
| Puffer                   | Supplied in Phosphate Buffered Saline, pH 7.4, with 15 mM Sodium Azide. |
| Formulierung             | Liquid                                                                  |
| Target-Kategorie         | Mouse IgG2b                                                             |

| Antibody Type          | Primary Antibody                                                                                                                                                                                                                                                |
|------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Application Verdünnung | Negative control: The reagent is intended as an isotype control to establish the amount of non-specific antibody binding. For your particular experiment, use the same concentration of this control antibody as the recommended working concentration of the a |
