## Product Datasheet

### **Anti-Interferon gamma Antibody [4S.B3], IgG1, Unconjugated, Mouse, Monoclonal ABC-A86391-10**

|                          |                                                                               |
|--------------------------|-------------------------------------------------------------------------------|
| Artikelname              | Anti-Interferon gamma Antibody [4S.B3], IgG1, Unconjugated, Mouse, Monoclonal |
| Artikelnummer            | ABC-A86391-10                                                                 |
| Hersteller Artikelnummer | A86391-10                                                                     |
| Alternativnummer         | ABC-A86391-10                                                                 |
| Hersteller               | Antibodies.com                                                                |
| Wirt                     | Mouse                                                                         |
| Kategorie                | Antikörper                                                                    |
| Applikation              | ELISA, FC, ICC, IHC-P, IP, RIA, WB                                            |
| Spezies Reaktivität      | Human, Primate                                                                |
| Immunogen                | Interferon gamma derived from human leukocytes.                               |
| Konjugation              | Unconjugated                                                                  |
| Produktbeschreibung      | Mouse monoclonal [4S.B3] antibody to Interferon gamma....                     |
| Klonalität               | Monoclonal                                                                    |
| Konzentration            | 1 mg/ml                                                                       |
| Klon-Bezeichnung         | [4S.B3]                                                                       |
| Isotyp                   | IgG1                                                                          |

|                        |                                                                                                                                                               |
|------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Puffer                 | Supplied in Phosphate Buffered Saline, pH 7.4, with 15 mM Sodium Azide.                                                                                       |
| Formulierung           | Liquid                                                                                                                                                        |
| Target-Kategorie       | Interferon gamma                                                                                                                                              |
| Antibody Type          | Primary Antibody                                                                                                                                              |
| Application Verdünnung | ELISA: This antibody has been tested as the detection antibody in combination with capture antibody NIB42, Flow Cytometry: 1-4 µg/ml, Intracellular staining. |
