## Product Datasheet

### **Anti-CD8 alpha Antibody [53-6.7] - Low endotoxin, Azide free, IgG2a, Unconjugated, Rat, Monoclonal ABC-A86753-100**

|                          |                                                                                                    |
|--------------------------|----------------------------------------------------------------------------------------------------|
| Artikelname              | Anti-CD8 alpha Antibody [53-6.7] - Low endotoxin, Azide free, IgG2a, Unconjugated, Rat, Monoclonal |
| Artikelnummer            | ABC-A86753-100                                                                                     |
| Hersteller Artikelnummer | A86753-100                                                                                         |
| Alternativnummer         | ABC-A86753-100                                                                                     |
| Hersteller               | Antibodies.com                                                                                     |
| Wirt                     | Rat                                                                                                |
| Kategorie                | Antikörper                                                                                         |
| Applikation              | FC, Functional Studies, ICC, IHC-Fr, IHC-P, IP                                                     |
| Spezies Reaktivität      | Mouse                                                                                              |
| Immunogen                | Mouse spleen cells.                                                                                |
| Konjugation              | Unconjugated                                                                                       |
| Produktbeschreibung      | Rat monoclonal [53-6.7] antibody to CD8 alpha....                                                  |
| Klonalität               | Monoclonal                                                                                         |
| Konzentration            | 1 mg/ml                                                                                            |
| Klon-Bezeichnung         | [53-6.7]                                                                                           |
| Isotyp                   | IgG2a                                                                                              |

|                        |                                                                                                                                                                                                                                     |
|------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Puffer                 | Supplied in Phosphate Buffered Saline, pH 7.4, without Sodium Azide (0.2 µm filter sterilized). Endotoxin level is less than 0.01 EU/µg of the protein.                                                                             |
| Formulierung           | Liquid                                                                                                                                                                                                                              |
| Target-Kategorie       | CD8 alpha                                                                                                                                                                                                                           |
| Antibody Type          | Primary Antibody                                                                                                                                                                                                                    |
| Application Verdünnung | FUNC: Isolation and depletion of CD8+ cells, blocking of cytotoxicity, inhibition of CD8+ T cell proliferation, Flow Cytometry: 1.5 µg/ml, IHC-Fr: 1:1000, formaldehyde fixation is not recommended, acetone fixation is preferred. |
