| Kategorie                | Biochemikalien                                                                                                                                                                                                                                                |
| Produktbeschreibung      | Cyanine 3 tetrazine is a fluorescent dye with tetrazine moiety for a conjugation reaction called TCO (trans-cyclooctene) ligation. Actually, tetrazines react not only with trans-cyclooctenes, but also with (methyl)cyclopropenes and strained non-benzo... |
| Molekulargewicht         | 727.64 kDa                                                                                                                                                                                                                                                    |
| Reinheit                 | 95% (by <sup>1</sup> H NMR and HPLC-MS).                                                                                                                                                                                                                      |
| Formulierung             | Dark red solid.                                                                                                                                                                                                                                               |
| Formel                   | C <sub>40</sub> H <sub>46</sub> N <sub>7</sub> BF <sub>4</sub> O                                                                                                                                                                                              |
