| Artikelname              | Recombinant Human ACE2 Protein (6xHis Tag), Unconjugated                                                                                                                               |
| Artikelnummer            | ABC-A318242-100                                                                                                                                                                        |
| Hersteller Artikelnummer | A318242-100                                                                                                                                                                            |
| Alternativnummer         | ABC-A318242-100                                                                                                                                                                        |
| Hersteller               | Antibodies.com                                                                                                                                                                         |
| Kategorie                | Proteine/Peptide                                                                                                                                                                       |
| Applikation              | ELISA, SDS-PAGE                                                                                                                                                                        |
| Konjugation              | Unconjugated                                                                                                                                                                           |
| Konzentration            | Reconstitution dependent.                                                                                                                                                              |
| Molekulargewicht         | The protein has a predicted molecular mass of 84.4 kDa after removal of the signal peptide. The apparent molecular mass of His-ACE2 is approximately 100-130 kDa due to glycosylation. |
| Tag                      | N-terminal 6xHis Tag                                                                                                                                                                   |
| Puffer                   | Lyophilized from sterile Phosphate Buffered Saline, pH 7.4. Normally 5%-8% Trehalose is added as a protectant before lyophilization.                                                   |
| Expression System        | HEK293 cells                                                                                                                                                                           |
| Reinheit                 | > 95% by SDS-PAGE and Coomassie blue staining.                                                                                                                                         |
| Formulierung             | Lyophilized                                                                                                                                                                            |
| Sequenz                  | 6xHis Tag + ACE2 (Gln18-Ser740)                                                                                                                                                        |
