| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                              |
| Applikation              | Activity Assay, Cell Culture                                                                                                                                                                                                                                  |
| Spezies Reaktivität      | Bovine                                                                                                                                                                                                                                                        |
| Konjugation              | Unconjugated                                                                                                                                                                                                                                                  |
| Produktbeschreibung      | Bovine Retinol Binding Protein 4, Active Protein is a purified Active Protein. Purity: >95% by SDS-PAGE. Host: E. coli. Endotoxin Level: <1.0EU per 1ug, by the LAL method. Species: Bovine (Bos taurus). Target Name: Retinol Binding Protein 4. Accessio... |
| Molekulargewicht         | 28kDa                                                                                                                                                                                                                                                         |
| Tag                      | N-Terminal His Tag                                                                                                                                                                                                                                            |
| Puffer                   | PBS, pH7.4, containing 0.01% SKL, 1mM DTT, 5% Trehalose and Proclin300.                                                                                                                                                                                       |
| Expression System        | Prokaryotic expression                                                                                                                                                                                                                                        |

|                  |                           |
|------------------|---------------------------|
| Reinheit         | >95% by SDS-PAGE          |
| Formulierung     | Freeze-dried powder       |
| Target-Kategorie | Retinol Binding Protein 4 |
