| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                              |
| Applikation              | Activity Assay, Cell Culture                                                                                                                                                                                                                                  |
| Spezies Reaktivität      | Rabbit                                                                                                                                                                                                                                                        |
| Konjugation              | Unconjugated                                                                                                                                                                                                                                                  |
| Produktbeschreibung      | Rabbit Immunoglobulin G1 is a purified Active Protein. Purity: >97% by SDS-PAGE. Host: 293F Cell. Endotoxin Level: <1.0EU per 1ug, by the LAL method. Species: Rabbit (Oryctolagus cuniculus). Target Name: Immunoglobulin G1. Accession Number: P01870. E... |
| Molekulargewicht         | 33kDa                                                                                                                                                                                                                                                         |
| Tag                      | N-Terminal His Tag and C-Terminal Fc Region of Rabbit (Oryctolagus cuniculus) IgG                                                                                                                                                                             |
| Puffer                   | PBS, pH7.4, containing 0.01% SKL, 1mM DTT, 5% Trehalose and Proclin300.                                                                                                                                                                                       |
| Expression System        | Eukaryotic expression                                                                                                                                                                                                                                         |
| Reinheit                 | >97% by SDS-PAGE                                                                                                                                                                                                                                              |

|                  |                     |
