| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                              |
| Applikation              | Activity Assay, Cell Culture                                                                                                                                                                                                                                  |
| Spezies Reaktivität      | Mouse                                                                                                                                                                                                                                                         |
| Konjugation              | Unconjugated                                                                                                                                                                                                                                                  |
| Produktbeschreibung      | Mouse Interleukin 28A is a purified Active Protein. Purity: >90% by SDS-PAGE. Host: 293F Cell. Endotoxin Level: <1.0EU per 1ug, by the LAL method. Species: Mouse (Mus musculus). Target Name: Interleukin 28A. Accession Number: Q4VK74. Gene ID: 330496.... |
| Molekulargewicht         | 30kDa                                                                                                                                                                                                                                                         |
| Tag                      | N-Terminal His Tag                                                                                                                                                                                                                                            |
| NCBI                     | <a href="#">330496</a>                                                                                                                                                                                                                                        |
| Puffer                   | PBS, pH7.4, containing 0.01% SKL, 1mM DTT, 5% Trehalose and Proclin300.                                                                                                                                                                                       |
| Expression System        | Eukaryotic expression                                                                                                                                                                                                                                         |

|                  |                     |
