| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                              |
| Applikation              | Control, SDS-PAGE, WB                                                                                                                                                                                                                                         |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Konjugation              | Unconjugated                                                                                                                                                                                                                                                  |
| Produktbeschreibung      | Prokaryotic Human Poly A Binding Protein Cytoplasmic 1 Like Protein is a purified Prokaryotic Protein. Purity: >90% by SDS-PAGE. Host: E. coli. Endotoxin Level: <1.0EU per 1ug, by the LAL method. Species: Human (Homo sapiens). Target Name: Poly A Bin... |
| Molekulargewicht         | 16kDa                                                                                                                                                                                                                                                         |
| Tag                      | N-Terminal His Tag                                                                                                                                                                                                                                            |
| Puffer                   | PBS, pH7.4, containing 0.01% SKL, 1mM DTT, 5% Trehalose and Proclin300.                                                                                                                                                                                       |

|                   |                                                   |
|-------------------|---------------------------------------------------|
| Expression System | Prokaryotic expression                            |
| Reinheit          | >90% by SDS-PAGE                                  |
| Formulierung      | Freeze-dried powder                               |
| Target-Kategorie  | Poly A Binding Protein Cytoplasmic 1 Like Protein |
