| Hersteller               | Biomatik Corporation                                                                                                                                                                                                                                          |
| Wirt                     | E. coli                                                                                                                                                                                                                                                       |
| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                              |
| Applikation              | Control, SDS-PAGE, WB                                                                                                                                                                                                                                         |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Konjugation              | Unconjugated                                                                                                                                                                                                                                                  |
| Produktbeschreibung      | Accession Number: P08253. Activity: Not Tested. Endotoxin Level: <1.0EU/ug, by the LAL method. Expiration: Stable for 12 months if correctly stored. Expression Region: Ala30~Cys660. Isoelectric Point: 5. Protein Type: Prokaryotic Protein. Quality Gua... |
| Molekulargewicht         | 75kDa                                                                                                                                                                                                                                                         |
| Tag                      | N-Terminal His Tag                                                                                                                                                                                                                                            |
| NCBI                     | <a href="#">4313</a>                                                                                                                                                                                                                                          |
| Puffer                   | PBS, pH7.4, containing 0.01% SKL, 1mM DTT, 5% Trehalose and Proclin300.                                                                                                                                                                                       |

|                   |                            |
|-------------------|----------------------------|
| Expression System | Prokaryotic expression     |
| Reinheit          | >90% by SDS-PAGE           |
| Formulierung      | Freeze-dried powder        |
| Target-Kategorie  | Matrix Metalloproteinase 2 |
