| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                              |
| Produktbeschreibung      | FGFR-1 protein is a tyrosine-protein kinase that acts as a cell surface receptor for fibroblast growth factor and plays a critical role in the complex regulation of embryonic development, cell proliferation, differentiation, and migration. FGFR-1 med... |
| Molekulargewicht         | Approximately 50-75 kDa due to the glycosylation.                                                                                                                                                                                                             |
| Reinheit                 | 98                                                                                                                                                                                                                                                            |
| Formel                   | 700126(Gene_ID)H9FRD4/NP_001253576.1 (R22-Y283)(Accession)                                                                                                                                                                                                    |
| Anwendungsbeschreibung   | MCE Product type: Recombinant Proteins                                                                                                                                                                                                                        |
