| Applikation              | ELISA                                                                                                                                                                                                                                                         |
| Spezies Reaktivität      | Mouse                                                                                                                                                                                                                                                         |
| Produktbeschreibung      | This Mouse Actin Beta (ACTb) ELISA Kit is a precoated, Sandwich ELISA assay designed to detect and quantify the target analyte in tissue homogenates, cell lysates, cell culture supernatants and other biological fluids . This product is for Research U... |
| Detektionsbereich        | 1.56-100ng/mL                                                                                                                                                                                                                                                 |
| Sensitivitaet            | 0.69ng/mL                                                                                                                                                                                                                                                     |
| NCBI                     | <a href="#">282708</a>                                                                                                                                                                                                                                        |
| UniProt                  | <a href="#">P36953</a>                                                                                                                                                                                                                                        |
| Proben                   | tissue homogenates, cell lysates, cell culture supernatants and other biological fluids                                                                                                                                                                       |
| Target-Kategorie         | Mouse Actin Beta (ACTb)                                                                                                                                                                                                                                       |

Anwendungsbeschreibung

Assay Length: 4.5 hours. Experimental Method: Sandwich
