| Spezies Reaktivität      | Rat                                                                                                                                                                                                                                                |
| Produktbeschreibung      | This Rat Connective Tissue Growth Factor (CTGF) ELISA Kit is a Sandwich ELISA assay that will detect and quantify the target analyte in serum, plasma, tissue homogenates, cell lysates, cell culture supernatants and other biological fluids.... |
| Detektionsbereich        | 6.25-400pg/mL                                                                                                                                                                                                                                      |
| Sensitivitaet            | 2.46pg/mL                                                                                                                                                                                                                                          |
