| Kategorie                | Kits/Assays                                                                                                                                                                                                                            |
| Applikation              | ELISA                                                                                                                                                                                                                                  |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                  |
| Produktbeschreibung      | This Human Flightless I Homolog (FLII) ELISA Kit is a precoated, Sandwich ELISA assay designed to detect and quantify the target analyte in tissue homogenates and other biological fluids . This product is for Research Use Only.... |
| Detektionsbereich        | 78.125-5000pg/mL                                                                                                                                                                                                                       |
| Sensitivitaet            | 29.2pg/mL                                                                                                                                                                                                                              |
| NCBI                     | <a href="#">8313</a>                                                                                                                                                                                                                   |
| UniProt                  | <a href="#">Q9Y2T1</a>                                                                                                                                                                                                                 |
| Proben                   | tissue homogenates and other biological fluids                                                                                                                                                                                         |
| Target-Kategorie         | Human Flightless I Homolog (FLII)                                                                                                                                                                                                      |
| Anwendungsbeschreibung   | Assay Length: 4.5 hours. Experimental Method: Sandwich                                                                                                                                                                                 |
