| Hersteller               | reddot Biotech                                                                                                                                                                                                                                                |
| Kategorie                | Kits/Assays                                                                                                                                                                                                                                                   |
| Applikation              | ELISA                                                                                                                                                                                                                                                         |
| Spezies Reaktivität      | Mouse                                                                                                                                                                                                                                                         |
| Produktbeschreibung      | This Mouse Glial Cell Line Derived Neurotrophic Factor (GDNF) ELISA Kit is a precoated, Sandwich ELISA assay designed to detect and quantify the target analyte in serum, plasma, tissue homogenates, cell lysates, cell culture supernatants and other bi... |
| Detektionsbereich        | 78.1-5000pg/mL                                                                                                                                                                                                                                                |
| Sensitivitaet            | 28pg/mL                                                                                                                                                                                                                                                       |
| NCBI                     | <a href="#">11132</a>                                                                                                                                                                                                                                         |
| UniProt                  | <a href="#">Q9HC96</a>                                                                                                                                                                                                                                        |
| Proben                   | serum, plasma, tissue homogenates, cell lysates, cell culture supernatants and other biological fluids                                                                                                                                                        |
| Target-Kategorie         | Mouse Glial Cell Line Derived Neurotrophic Factor (GDNF)                                                                                                                                                                                                      |

Anwendungsbeschreibung

Assay Length: 4.5 hours. Experimental Method: Sandwich
