| Kategorie                | Kits/Assays                                                                                                                                                                                                                           |
| Applikation              | ELISA                                                                                                                                                                                                                                 |
| Spezies Reaktivität      | Canine                                                                                                                                                                                                                                |
| Produktbeschreibung      | This Canine Hepatocyte Growth Factor (HGF) ELISA Kit is a precoated, Sandwich ELISA assay designed to detect and quantify the target analyte in serum, plasma and other biological fluids . This product is for Research Use Only.... |
| Detektionsbereich        | 15.625-1000pg/mL                                                                                                                                                                                                                      |
| Sensitivitaet            | 5.6pg/mL                                                                                                                                                                                                                              |
| NCBI                     | <a href="#">1291</a>                                                                                                                                                                                                                  |
| UniProt                  | <a href="#">P12109</a>                                                                                                                                                                                                                |
| Proben                   | serum, plasma and other biological fluids                                                                                                                                                                                             |
| Target-Kategorie         | Canine Hepatocyte Growth Factor (HGF)                                                                                                                                                                                                 |
| Anwendungsbeschreibung   | Assay Length: 4.5 hours. Experimental Method: Sandwich                                                                                                                                                                                |
