| Kategorie                | Kits/Assays                                                                                                                                                                                                                                                |
| Applikation              | ELISA                                                                                                                                                                                                                                                      |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                      |
| Produktbeschreibung      | This Human Integrin Linked Kinase 1 (ILK-1) ELISA Kit is a precoated, Sandwich ELISA assay designed to detect and quantify the target analyte in serum, plasma, tissue homogenates and other biological fluids . This product is for Research Use Only.... |
| Detektionsbereich        | 78.1-5000pg/mL                                                                                                                                                                                                                                             |
| Sensitivitaet            | 33.5pg/mL                                                                                                                                                                                                                                                  |
