| Immunogen                | Synthetic peptide within Human COPA aa 1-50 / 1,224.                                                                                                                                                                                                          |
| Konjugation              | Unconjugated                                                                                                                                                                                                                                                  |
| Produktbeschreibung      | Coatomer subunit alpha is a protein that in humans is encoded by the COPA gene. In eukaryotic cells, protein transport between the endoplasmic reticulum and Golgi compartments is mediated in part by non-clathrin-coated vesicular coat proteins (COPs).... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 1 mg/mL.                                                                                                                                                                                                                                                      |
| Klon-Bezeichnung         | [JE35-32]                                                                                                                                                                                                                                                     |

|                        |                                                                           |
|------------------------|---------------------------------------------------------------------------|
| Molekulargewicht       | Predicted band size: 139 kDa                                              |
| UniProt                | <a href="#">P53621</a>                                                    |
| Puffer                 | 1*TBS (pH7.4), 0.05% BSA, 40% Glycerol. Preservative: 0.05% Sodium Azide. |
| Reinheit               | Protein A affinity purified.                                              |
| Formulierung           | Liquid                                                                    |
| Target-Kategorie       | COPA                                                                      |
| Antibody Type          | Primary Antibody                                                          |
| Application Verdünnung | WB: 1:1,000 ,IHC-P: 1:200 ,IF-Cell: 1:50                                  |
