| Produktbeschreibung      | Lin-28 homolog B is a protein that in humans is encoded by the LIN28B gene. The protein encoded by this gene belongs to the lin-28 family, which is characterized by the presence of a cold-shock domain and a pair of CCHC zinc finger domains. This gene... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 1 mg/mL.                                                                                                                                                                                                                                                      |
| Klon-Bezeichnung         | [JE04-80]                                                                                                                                                                                                                                                     |
