| Produktbeschreibung      | T-cell surface glycoprotein CD3 zeta chain also known as T-cell receptor T3 zeta chain or CD247 (Cluster of Differentiation 247) is a protein that in humans is encoded by the CD247 gene. Some older literature mention a similar protein called CD3 eta ... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 1 mg/mL.                                                                                                                                                                                                                                                      |
| Klon-Bezeichnung         | [JE09-37]                                                                                                                                                                                                                                                     |

|                        |                                                                           |
|------------------------|---------------------------------------------------------------------------|
| Molekulargewicht       | Predicted band size: 19 kDa                                               |
| UniProt                | <a href="#">P20963</a>                                                    |
| Puffer                 | 1*TBS (pH7.4), 0.05% BSA, 40% Glycerol. Preservative: 0.05% Sodium Azide. |
| Reinheit               | Protein A affinity purified.                                              |
| Formulierung           | Liquid                                                                    |
