| Immunogen                | Synthetic peptide within human Aquaporin 3 aa 243-292.                                                                                                                                                                                                        |
| Konjugation              | Unconjugated                                                                                                                                                                                                                                                  |
| Produktbeschreibung      | Aquaporin 3 (AQP-3) is the protein product of the human AQP3 gene. It is found in the basolateral cell membrane of principal collecting duct cells and provides a pathway for water to exit these cells. Aquaporin-3 is also permeable to glycerol, ammoni... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 1 mg/mL.                                                                                                                                                                                                                                                      |
| Klon-Bezeichnung         | [PSH06-52]                                                                                                                                                                                                                                                    |

|                        |                                                                        |
|------------------------|------------------------------------------------------------------------|
| Molekulargewicht       | Predicted band size: 32 kDa                                            |
| Isotyp                 | IgG1                                                                   |
