| Hersteller               | baseclick                                                                                                                                                                                                                                                     |
| Kategorie                | Biochemikalien                                                                                                                                                                                                                                                |
| Produktbeschreibung      | Uridine triphosphate (UTP) is a fundamental molecule in the process of RNA synthesis and plays a crucial role in transcription and various RNA-related applications in molecular biology and biotechnology. RNA synthesis and transcription: During transc... |
| Konzentration            | 100 mM                                                                                                                                                                                                                                                        |
| Molekulargewicht         | 488.14 g/mol                                                                                                                                                                                                                                                  |
| Reinheit                 | 98.5% (HPLC), pH 8.3 0.2                                                                                                                                                                                                                                      |
| Formulierung             | Liquid                                                                                                                                                                                                                                                        |
| CAS Nummer               | [63-39-8 free acid 19817-92-6 trisodium salt]                                                                                                                                                                                                                 |
| Formel                   | C <sub>9</sub> H <sub>15</sub> N <sub>2</sub> O <sub>15</sub> P <sub>3</sub>                                                                                                                                                                                  |
| Anwendungsbeschreibung   | Triphosphate for RNA synthesis and transcription                                                                                                                                                                                                              |
