CheKine(TM) Micro Hydroxyl Free Radical Scavenging Capacity Assay Kit ASC-KTB1091

Artikelname	CheKine(TM) Micro Hydroxyl Free Radical Scavenging Capacity Assay Kit
Artikelnummer	ASC-KTB1091
Hersteller Artikelnummer	KTB1091
Alternativnummer	ASC-KTB1091-48, ASC-KTB1091-96
Hersteller	Abbkin Scientific
Kategorie	Kits/Assays
Produktbeschreibung	CheKine(TM) Micro Hydroxyl Free Radical Scavenging Capacity Assay Kit (Salicylic Acid Method) is specially developed for the detection of Hydroxyl Free Radical Scavenging Capacity in various sample such as plasma, serum, bacteria, animal /plant tissue...
Tag	Hydroxyl Free Radical Scavenging Capacity
Anwendungsbeschreibung	Abbkin CheKine(TM) Micro Hydroxyl Free Radical Scavenging Capacity Assay Kit (Colorimetric) (Salicylic Acid Method) is specially developed for the detection of Hydroxyl Free Radical Scavenging Capacity in various sample. The operation is simple and conveni
