| Produktbeschreibung      | Human HMGB1 Protein, His tag (Animal-Free), expressed in E. coli...                                                                                                                                                                                                            |
| Molekulargewicht         | 25.70 kDa                                                                                                                                                                                                                                                                      |
| Tag                      | HMGB1                                                                                                                                                                                                                                                                          |
| Reinheit                 | >98% as determined by SDS-PAGE.                                                                                                                                                                                                                                                |
| Formulierung             | The protein was lyophilized from a 0.2 µm filtered solution containing 1X PBS, pH 8.0. If you have any concerns or special requirements, please confirm with us.                                                                                                               |
